PATENT APPLICATION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the Application of

Hiroshi KOYAMA et al.

Group Art Unit: 1732

Application No.: 10/627,916

Examiner: A. ORTIZ

Filed: July 28, 2003

Docket No.: 116124

For: MANUFACTURING DEVICE AND MANUFACTURING METHOD FOR
SYNTHETIC RESIN HOLLOW MOLDED BODY

RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the Election of Species Requirement mailed November 16, 2005,
Applicants provisionally elect Species (A) the device wherein one assembly member is
rotated such that at least two members face one another. Applicants submit that claims 1, 2
and 4-11 read on elected Species (A) and claims 1 and 4-11 are generic to all Species. This
election is made with traverse.

It is respectfully submitted that the subject matter of all species is sufficiently related
that a thorough search for the subject matter of the elected species would encompass a search
for the subject matter of the remaining species. Thus, it is respectfully submitted that the
search and examination of the entire application could be made without serious burden. See
MPEP §803 in which is stated that "If the search and examination of an entire application can
be made without serious burden, the Examiner must examine it on the merits, even though it
includes claims to distinct or independent inventions." (Emphasis added). It is respectfully

submitted that this policy should apply in the present application to avoid unnecessary delay and expense to Applicants and duplicative examination by the U.S. Patent and Trademark Office.

In view of the foregoing, it is respectfully submitted that claims 1-11 can be examined without undue burden on the Examiner. Accordingly, it is respectfully requested that the Election of Species Requirement be withdrawn.

Respectfully submitted,

James A. Oliff
